

I do not agree with the LPFM rule change. I listen to a great station, K-Love, which is quite inspirational to me and many of my friends and coworkers in Dayton. Replacing this with LPFM would rob us of a commercial free inspirational station. This station provides a great service to us in the community, providing a positive influence on us throughout our day. Please reconsider changing this law and keep stations like K-Love on the air for us to enjoy. Thank you for your time.
